

# Minutes Last Blackfoot M.D. Council Meeting

Third Meeting 1928

Minutes of the meeting of the Council of Blackfoot, M. D., No. 218, held in the Municipal Office at Glenora on Tuesday, March 13th.

Present: Councillors J. A. Maynard, W. J. Dunsmuir, D. R. Elder, Duncan McLean and T. A. Thorsen.

It was moved by Councillor Dunsmuir and carried unanimously that Councillor Thorsen occupy the chair during the election of reeve.

On taking the chair Councillor Thorsen called for nominations for reeve for the current year.

Councillor Thorsen was nominated by Councillor Maynard.

It was then moved by Councillor Dunsmuir and carried that nominations close.

Councillor Thorsen was declared elected by acclamation.

Reeve Thorsen then called for nominations for deputy-reeve for the first six months of the current year.

It was then moved by Councillor Elder and carried that nominations close and Councillor McLean declared elected.

Coun. McLean: That the reeve be paid at the rate of \$4. per day and 10 cents per mile for every mile for attendance at Council meetings and that each member of the Council be paid 10 cents per mile for each mile necessarily travelled in attending meetings of the Council as provided for by Sub-section 1, of Sec. 61, of the Municipal District Act.

Coun. Dunsmuir: That each member of the Council be paid at the rate of \$4. per day and 10 cents per mile for every mile necessarily travelled and the sum of \$4. per day for the time, not exceeding 15 days during the current year, necessarily occupied in going out and inspecting work done or to be done for the benefit of the municipality and subject to the provisions of Sub-section 4, of Sec. 61, of the Municipal District Act.

Coun. Elder: That the members of the committees appointed by this Council to attend to matters relating to the Municipality be paid their expenses—Carried.

Coun. McLean: That the Legislature Committee of Councillor Elder, Dunsmuir and Reeve Thorsen—Carried.

Coun. Dunsmuir: That the Finance Committee consist of Councillors Elder, McLean and Maynard—Carried.

Coun. Maynard: That the Council consist of Division 1, 4 and 5, and that the Council be authorized to settle disputes with damage claims at the point situated on the S.W. 23-24-25th, and that the Council be authorized to settle disputes with damage claims at the point situated in the Town of Glenora and at the point situated on the S.W. 25-26-27th—Carried.

Coun. Dunsmuir: That J. H. Wright be the assessor for the current year—Carried.

Coun. McLean: That A. L. Burwen, C. A. of Calgary, be appointed assessor for the current year at a salary of \$175. per year—Carried.

Coun. Maynard: That the meeting of the Municipal Council be continued—Carried.

Coun. Elder: That J. H. Wright be used Inspector during the pleasure assessment upon south of canal, of this Council and that his duties be laid out in the Divisional Ward as a Act as well as any other duties in connection with the eradication of weeds from time to time be decided by this Council—Carried.

Coun. Maynard: That the reeve meet and the secretary meet. That we leave treasurer be authorized to sign all the assessment against the south of checks, vouchers and other documents in connection with the business of the Municipality—Carried.

Maynards: That he will hold regular Council meetings on the second Tuesday of each month at 10 a.m. and that such meetings be held in the Municipal Office.

# Gleichen Town Council Many Attend Board Hold Session Of Trade Meeting

Minutes of a meeting of the Town Council in the Town Office, Friday, 16th March, 1928, at eight p.m.

Present: Mayor Purcell, Little, Alin, Milliken and Brown.

The minutes of 30 February be adopted as read—Carried.

Mr. Grisebach offer for lots: Alin, Brown and Little: That we accept Mr. Grisebach's offer of \$175. for lots 12 Block 10 and 13-20 Block 11. To be paid \$135.00 cash and balance when Mr. Grisebach thins his crop—Interests at 6% to be charged commencing three months from date—Carried.

The secretary reported on property sale held on Saturday 3rd March. A letter was read from Mr. Nowers stating that he expected to commence assessing the town on the 20th March.

The secretary was requested to write Mr. R. A. Brown of Calgary with a view to securing a reduction of the light rates.

Alin, Milliken and Brown: That the secretary write the city solicitor, Calgary, explaining our reasons for non-payment of this account—Carried.

Alin, Brown and Little: That the school demand of \$5,000.00 for the year 1928 be accepted—Carried.

Alin, Milliken and Little: That the statement of receipts for the month of February be embodied in the minutes—Carried.

Alin, Milliken and Little: That the accounts as passed by the finance committee be paid—Carried.

Estimates for the year were discussed and the chairman of the committee asked to bring in their estimates for the year at the next meeting.

The secretary was asked to make estimates regarding cost of drug for roads.

The Calgary Klondike held Friday night provided a rare treat in the Community Hall, which was well filled despite the very bad conditions of the streets and roads, some coming quite a number of miles. For two and a half hours these bright children, boys and girls, were entertained by their instructor, Mrs. McDonald, may well be proud of, and which goes to show just what can be done with young children when taken in charge by such capable instructors as are found in the McDonald Academy. The program consisted of an excellent variety of dances, songs, and monologues, that were delightful, and the costumes lent nothing to be desired.

Mrs. McDonald's program was a most successful one in every respect and created a great amount of fun and laughter for the young friends, and in fact all present.

In the ten lessons some thirty Gleichen pupils had been expected, yet from their ten teams down to little tots of six or seven years of age.

Results have been attained, so much so that already a good number of parents have signed to have their children continue and many more are considering the advisability of so doing.

At a call of the meeting of \$1.50 paid up, those to bring the Calgary Klondike to Gleichen again may rest assured of a good patronage.

GLEICHEN CANADIAN CLUB

A meeting of the executive of the Gleichen Branch of the Canadian Club was held on Friday afternoon in the Clubroom of the Gleichen Community Hall.

President, Geo. Grodenham was in the chair with the following members present: Mesdames W. Park Evans, L. McLean, A. B. Tate, and Messrs. H. Hutcheon, Ostrander, Rev. F. M. Ross Gilroy and Major Lewis. Mr. Grodenham expressed his appreciation of the club's activities.

# The Hockey Boys Delighted With Rings

The eleven signet rings for the 22nd Putney Hockey team arrived 11 p.m. after Captain's Boucher came and after inspection Monday morning by the officers of the Gleichen Women's Institute were ordered to be delivered to the boys individually.

President Major Lewis received a Maconic gold pin, the boys Brown, Tom Johnson, Tiger Lyons, S. McKey, Al Wilson, and O. Wilson, all signet payers and their substitutes Can. Brown, Pat Beach and Billy Taylor.

Trainer Jack Moss, each received signet rings, with their initials engraved thereon, and "1928" cut on the inside. When they heard the rings had arrived at the postoffice Sunday they could not rest, and gave Orland leave no place left to get them out and let them have a peep. Bright and early they arrived at the Gleichen Jewellers Co. store for their rings. Al, Orland informed them they could not be given out until the Institute ladies inspected each one. Pressure being used the phones began ringing spring school hours.

And finally a couple of officers cut their wait and after looking the rings over, passed their approval. Still business first—the Institute check was filled out, passed over, and not till then they gave the rings. It took a little time for the boys to earn this little time for their rings.

Call for their gifts. Like everything the Institute had to do there is nothing new about the rings. Back is made of 10K and yellow, it fast a much better ring than the sample they were given and will last a life-time and more.

While the boys are justly proud of their individual gifts. They are not a whit more proud than the citizens of the town of Gleichen who brew 1927-1928 Hockey Team—it's a mighty poor citizen who would not be proud of such fine young fellows.

These boys started slowly and were kicked first game by a team lacking the stamina to last the distance. The defeat worked wonders—put them on their mettle. Then when they defeated the team they did not get swelled heads, for again when Medicine Hat fell before them. High River smiled at their audacity, but latter trampled and fell before fastness. Still our boys remained humble and again strathcona took an unexpected fall out of them. Yet they met at Medicine Hat new team determined, and though defeat was theirs, they were proud of them, believing with good cause for our fellows would have had a much better time, allowing the Hat's four goals to be only one season we will have several more high school boys ready for the fray with a good trainer, our basketball-brothers will make more than Alberta at and pay attention.

Saturday Night in Gleichen Community Hall

# Gleichen Curlers Listen to Sermon

A goodly number attended the annual curlers church service in the United Church Sunday evening and were greatly interested in Rev. Corcoran's address, who took the text, Philipian 2: 14.

"I press toward the mark for the prize of the high calling."

After welcoming the curling club, he traced the history of curling from the time it was played by the Vikings, when according to tradition it was played with human skulls weighted with lead, down to the present time. Mentioned was made of the same being brought to Scotland during the 16th century by Finnish immigrants. In Scotland it had developed into a fine gentlemen's game, in which the spirit of democracy, tolerance and co-operation was developed. Mr. Corcoran likened it to the game of life, in which side game was much needed. He mentioned three weights of rocks necessary to win the game. He urged his hearers to be patient. The best apple takes a long while to ripen. He pointed out that Gladstone, Lincoln, Bismarck, Salisbury, MacDonald, Boucher, Booth, Moore, Hugo, were all men over fifty years of age when they attained to greatness. He urged the need of the divine spark in the game of life because life is not a very long game but it is a steady work.

A new tooth is growing in the upper jaw of Mrs. Catherine Dinon, aged 86, of Calgary, Island.

COMING EVENTS

March 28—Chevrolet Demonstration and Pictures at Standard.

March 30—Social Dance at Living Spring School House.

March 28—Georgian Singers and Players in Gleichen Community Hall.

March 30—Booster Baseball Game at Arrowwood.

March 30—Yimmie Yonson's Yoke and Little then they gave the rings. It took a little time for the boys to earn this little time for their rings.

Call for their gifts. Like everything the Institute had to do there is nothing new about the rings. Back is made of 10K and yellow, it fast a much better ring than the sample they were given and will last a life-time and more.

While the boys are justly proud of their individual gifts. They are not a whit more proud than the citizens of the town of Gleichen who brew 1927-1928 Hockey Team—it's a mighty poor citizen who would not be proud of such fine young fellows.

Red Rose Orange Pekoe  
is supreme  
In clean, bright Aluminum.

## A Forward Step

The development and growth of Canada politically, economically, in commerce and finance, in production from its natural resources of the field, the forest, the mine, and the waters of the Dominion has, during the first sixty years of Confederation, been most gratifying. This is now fairly generally recognized. It is also the general belief that Canada is just entering upon a still greater era of expansion and development in many directions leading to a greater growth and larger prosperity.

The question, however, which, to an increasing extent, is calling for serious consideration is: What policies should be adopted and steps taken to insure that this future development shall proceed along lines that will result in building up a strong nation, and in such a way that maximum benefits from such development shall accrue to the whole people of the Dominion?

During the pioneer stage in any country's development it is inevitable that its people devote their energies largely to the production of primary articles, largely raw materials. But with increase in population, the provision of adequate means of transportation, and the accumulation of wealth, a country should move forward in the work of not only producing such raw materials in increasing quantities but in utilizing them in the manufacture of finished articles.

It is important that crude methods in production of raw materials be discarded for those best calculated to give larger quantities, better qualities, and at lower costs; that all possible waste be eliminated; that as many by-products as possible be reclaimed, and that use be made of low-grade and off-grade materials. It is perhaps of even greater importance to ascertain the nature of pests and other agencies which now operate to destroy our raw materials at their source, and to discover effective means for their eradication.

The discovery of all these things can best be brought about through the painstaking effort of the expert in scientific research. Such work may require years of study, investigation and experiment. In many, perhaps most, cases it will call for laboratory and other expensive equipment. In the past Canadians have not fully appreciated the importance of such work, and as a consequence have not been prepared to provide the necessary public funds to carry it on. As a people we have been too busy attending to our own particular problems, and demanding immediate solutions of them, that we have been impatient of ideas based on long and expensive scientific research. As a result, Canada today lags behind other nations in this respect, nations which have not nearly the wealth of natural resources calling for development which Canada possesses.

It is, therefore, highly gratifying to learn of the action of the House of Commons in unanimously adopting a resolution favoring the establishment of a National Research Institute by the Dominion Government, and of announcement by the Government of its intention to proceed with the erection of the first wing of a National Research Institute building on a ten acre plot at the central experimental farm at Ottawa.

Last year, it is stated, Canada spent \$250,000 for research as compared with \$50,000,000 by the United States, and \$25,000,000 by Great Britain. This year the Government will, on the recommendation of the Research Council, increase the vote for research work to \$750,000, and the Minister estimated that three million dollars would be required during the next five or ten years to construct and develop laboratories.

In this way the splendid work initiated by many of our Canadian universities, assisted by private capital, will be supplemented, and the whole work of research in Canada co-ordinated and developed. When it is realized that Canada is estimated to be losing at least twenty million dollars a year through grain rust alone, the possibilities of gigantic gain through research work can be grasped. A few millions a year spent in research work may easily mean a gain of ten times as many millions through discoveries made.

### Might Come In Handy

A Scottish golfer clergyman drove his ball into the famous "Hell" bunker on the St. Andrew's course.

"Ye're in Hell now," said the caddy amiably, "and once ye're in, ye'll no get out again!"

"Will I no?" retorted the clergyman, and with a huge sweep lifted the ball out of the sandy abyss and on to the green.

"Awel, sir," said the astonished caddy, "when ye dee be sure and tak' yer neelick wi' ye."

### Was All Right Otherwise

At a dinner during the war a certain man of international fame was being discussed. Opinions differed concerning him. Some of the diners attacked him savagely; others insisted that he was a fine fellow despite his mistakes. Sir James M. Barrie, who was present, listened to all their remarks in silence, then said quietly without looking up from his plate:

"He was an infernal scoundrel, but 'was his only fault."

When asked if she was interested in a car with a worm drive she declared she never felt safe with her husband at the wheel.

### New York's Massive Organ

Instrument For St. Patrick's Cathedral Contains Twelve Thousand Pipes

Thousands of electro magnets and hundreds of miles of wire are included in the first section of the massive organ—one of the largest in the world—built at St. Louis for St. Patrick's Cathedral, New York City.

The first section of the organ, shipped recently from St. Louis, required four freight cars. Other sections will follow.

The completed instrument will contain 12,000 pipes. It will have a special string section to give the effect of a large choir of violins, cellos and violas. Virtually every basic metal has gone into the construction of the instrument, as well as the hides of hundreds of calves and lambs.

Operating controls for the instrument are on a switchboard as large as the telephone switchboard for an average town.

### The Strength Of Insects

In Proportion To Size Are Much Stronger Than Men

If you were asked to name the strongest animal, how would you reply? Would you say the elephant, or the tiger, or the horse, or the ox was the strongest animal in the world? These are certainly very strong animals, but, in proportion to their size and weight, insects are stronger than nearly all large animals, and very much stronger than men.

A man who can drag or carry a load of three or four times his own weight is considered strong, but a beetle can walk with five hundred times its own weight!

A man put into a wooden box, with things five times his own weight on top of it, would never be able to get out by himself; but naturalists tell us to keep a stag-beetle prisoner in the same way, you would have to pile on the top of the box at least eighteen hundred times its own weight.

## HOW DELICATE GIRLS ARE MADE STRONG

Rich, Red Blood Needed To Keep Up Their Vitality

It should be borne in mind that pale, bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-door exercise. But a lack of appetite and tired, aching limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich blood, and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anemic girls and women into cheerful, happy people.

The value of Dr. Williams' Pink Pills in the case of anemic girls is proved by the case of Miss Lucy Stoddard, Margaretville, N.S., who says: "From the age of 12 to 15, I was in an anemic condition. I was very thin and nervous, had no appetite and had no desire to take part in the doings of those of my age. My mother got tonic after tonic for me, but they did me very little good. Then Dr. Williams' Pink Pills were recommended and almost from the first they seemed to be just what was needed to restore my strength. After taking the pills for a time I felt altogether different girl. I got up in the morning feeling bright and active, and ready for work or play. Since then I have always taken a couple of boxes of Dr. Williams' Pink Pills in the spring as a tonic and have thus kept in the best of condition."

Every weak girl should promptly follow the example of Miss Stoddard, feeling sure that the pills will renew her health. You can get the pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Prince Has New Title

Asked To Assume Title Of Master Of The Merchant Navy

The Prince of Wales has an addition to his already numerous titles, King George having asked him to assume the title of Master of the Merchant Navy and Fishing Fleet. His Majesty has been for some time considering what steps can be taken to bring the merchant navy and fishing fleet into line with other great services of the Empire by having as the titular head some member of the royal family.

Car Salesman—"And the price is within easy reach."

Victim—"Show me where to reach and I'll grab it."

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

The saying is that stone walls do not a prison make nor iron bars a cage.

But, boy, how they do help!

A ship a day is the wreck toll for the past year of ships of all nations.

Minard's Linctment relieves pain.

# CANCER

Great Success of  
Cantassium Treatment

A well-known London surgeon and recognized authority on Cancer has created world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant. In order that every one may learn

The Real Cause of  
Cancer

a remarkable book has been specially written. This book will be sent free to patients or any one who is interested in the most successful method of fighting "THE CANCER SCOURGE."

The following is a list of the chapters:  
1. The Limitations of Surgery; 2. Some Doctors' Opinions; 3. What Causes Cancer; 4. Why the BODY CELLS BREAK DOWN; 5. Injurious Cooling Methods; 6. Common Errors in Diet; 7. Vital Elements of Food; 8. Medical Endorsements of Our Claim; 9. The Chief Minerals of the Body; 10. The Thyroid Gland; 11. Age When Life Begins to Accumulate; 12. Potassium Causes Life Extension; 13. Great Value of Potassium; 14. Parts of the Body Liable to Cancer; 15. Parts Which Are Seldom Affected; 16. How a Doctor Can Help; 17. How to Avoid Cancer; 18. Death-rate From Cancer; 19. Arterial Sclerosis and Old Age; 20. Rheumatism, Gout and Kidney Complaints.

With this book is a number of interesting case-reports proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walker, 51 Brunswick Avenue, Toronto, Ontario, Canada.

### World Race In Air Mails

One Letter Sent West and One East In Test

Two air mail letters are racing each other around the world, traveling in opposite directions, in an "around the world air mail derby," announced at Seattle by the Post-Intelligencer.

The two letters are being speeded on their opposite paths around the globe by use of all available air mail routes here and abroad.

The post office department is assisting in the race, the purpose being to lower the present record for circumnavigation of the globe by letters. The eastbound letter was sent by train to Pasco, Wash., where it was started on its journey by airplane, the westbound letter was by air mail to Victoria, B.C., thence by ship.

### Preparing Reception For British Party

Empire Parliamentary Association To Visit Canada This Summer

Details for the reception this summer of the Empire parliamentary association are now being completed. It is understood that a party of about 50 members of parliament from Great Britain will take part in the tour of Canada, accompanied by some members of the parliament of Canada.

The British party will arrive in Quebec on August 25. They will visit Montreal, Toronto, Niagara Falls and spend two days in Winnipeg about September 4 or 5. Saskatchewan, Edmonton, Jasper, Vancouver, and Victoria are included in the trip West. Coming East there will be visits to Lake Louise, Banff, and to the EP Ranch near High River, Calgary and Regina.

According to Pliny, Cato believed that husbands started kissing in order to determine whether their wives and daughters had been drinking wine.

Jim—"Don't complain. Look at Joe. He lost his job and he's not kicking."

Jake—"Well that doesn't help me. I'm not Joe."

Japan has converted an antiquated warship into a naval museum.

## The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demore, Pleasant River, N.S., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework."

"I would get dizzy spells and would have to go and lie down."

"I could not sleep at night as the least little noise would wake me up."

"I tried different kinds of medicine, but they seemed to do me no good."

"A friend recommended

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

### Widen Income Tax Scope

Speculation Profits On Grain Or Stocks To Be Subject To Tax

Broadening the principle laid down in the case of Allan Morrison versus the Crown, in which the court held that income derived from speculation on the grain exchange was taxable under the Income Tax Act, the income tax department intends to levy tribute upon profits made from speculation, whether on grain or stocks.

This announcement was made by the department and it was further stated that the tax would apply upon profits made in the calendar year 1927. It is expected that some \$50,000,000 additional income will be brought under the tax annually, and since much of it runs to high amounts per individual, the increase in the receipts of the government may well approximate \$5,000,000 per annum.

Those who speculate only occasionally will not be subject to the levy, but all who make a business of it, notwithstanding the fact that they may be at work daily in other businesses, will be considered taxable.

### Prevent Level Crossing Accidents

New Legislation Introduced In Saskatchewan House With This Object In View

Complete accord by all parties in the Saskatchewan Legislature was expressed on the proposed amendments to the Vehicle Act which have to do with autoists bringing their cars to a complete stop at railway level crossings or where stop signals are erected, before attempting to make a crossing.

The amendment was introduced by Hon. S. J. Latta, provincial secretary, as an attempt to eliminate level crossing accidents.

The Saskatchewan gasoline tax bill, introduced by Hon. S. J. Latta, calls for a tax of three cents on each gallon of gasoline sold, and will come into force May 1.

### A River That Burns

Stream Of Water In France Was Ignited By Match

A burning river and a buried forest were the unexpected rewards of men digging for springs in the interest of the water supply of Corono, France. Instead of a spring they discovered a stream of water which bubbled like champagne.

When a match was thrown into the water it caught fire and burned for several hours.

The source of the gas was found by sinking a shaft 100 feet where giant oaks and pines were discovered decomposed, remains of a forest supposed to have been buried hundreds of years ago by a landslide.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

### Recipes For This Week

(By Betty Barclay)

#### LAMB MENAGERE (Thrifty Housewife's Lamb Ramekins)

1/2 cup sweetened condensed milk.  
2 sups cold lamb, minced.  
1 teaspoon salt (scant).  
1/4 teaspoon white pepper.  
2 tablespoons chopped green peppers.  
1 tablespoon chopped onions.  
2 tablespoons hot water.  
2 tablespoons bread crumbs.  
1 tablespoon butter.  
Mix sweetened condensed milk with water and stir into minced lamb. Add salt, pepper, chopped onion and green peppers. Put into buttered ramekins. Melt butter; mix with bread crumbs and sprinkle over meat. Bake in a moderate oven (350 degrees Fahrenheit) for about 20 minutes, or until well browned.

#### CUSTARD SOUFFLE

3 tablespoons butter.  
1/4 cup flour.  
1/4 cup sugar.  
1 cup scalded milk.  
4 eggs.  
1/2 teaspoon salt.  
Melt butter, add flour, and gradually hot milk. Bring to boiling point and pour on to yolks of eggs beaten until thick and lemon-colored, mixed with sugar and salt. Fold in whites of eggs beaten stiff. Turn into buttered dish, and bake from 30 to 35 minutes in slow oven. Take from oven and serve at once. Serve with hard sauce, whipped or plain cream.

Minard's Linctment for sick animals.

# CUTICURA

Promotes Loveliness  
Of Skin And Hair

Daily use of the Soap, assisted by the Ointment when required, keeps the skin fresh and clear and the hair healthy and glossy. They are ideal for the toilet, as is also the smooth, cooling, fragrant Cuticura Talcum.

Sample Each Free by Mail. Address Canadian Depot: "Cuticura," Ltd., Montreal. Price, Soap 25c. Ointment 50c. Cuticura Shaving Stick 25c.

### Discuss Coal Subsidy

Subsidy To Railways For Transporting Alberta Coal Should Come From Dominion Government

Any subsidy to the railways for transporting Alberta coal to Ontario should come from the Dominion Government and not from Ontario, said Premier G. H. Ferguson in the Ontario legislature, in reply to a question of J. G. Lethbridge, Progressive leader.

Mr. Lethbridge asked what the attitude of the government was in view of recent suggestions made in the press. Mr. Ferguson pointed out that the railways wanted \$9 a ton whereas the actual cost as determined by the railway board was \$7. The real cost, he thought, was nearer \$6.75. There was a suggestion, said the premier, that if the Dominion Government would contribute a subsidy of \$1 a ton, the province of Ontario and Quebec should join in providing another dollar.

### Federal Grants For Fairs

Policy Of Government Should Be Better Defined

Western members of parliament are in receipt of telegrams almost daily from constituents in regard to the federal grants to class B fairs, and there is every indication that the policy of the government in this regard will be a subject of keen controversy in the present session.

The difficulty arises out of the manner in which the grants are given. Some fairs receive assistance and others do not, and the government hitherto has declined to base the assistance upon any principle. Western members declare that the grants should be given to all fairs which can qualify as class B, or discontinued entirely.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

Communication by telephone has been established between Scotland and Canada. On that line idle gossip will not often interfere with the transaction of business.

Many a man who has made a failure at everything else imagines that he is a success as a husband.

A cynic is a person who knows the price of everything and the value of nothing.

The man who is looking for trouble doesn't have to advertise for it.

### Gifts to the Nation

A Splendid Opportunity To Show An Example Of Public Spirited Philanthropy

The gift of £500,000 from an anonymous donor to the British nation to help in the reduction of the national debt of Great Britain is probably the largest gift of this nature the Old Land has ever received. This two and a half million dollars is to accumulate at compound interest over a long period of years, to be applied ultimately in reducing the nation's debt. Previous gifts for this same purpose that have been given since the close of the war amount to £10,780,000 today. Of this sum, Right Hon. Stanley Baldwin, Prime Minister of Britain, contributed one-fifth of his estate, which amounted to £120,000.

It is a splendid example of pure philanthropy that these men have set for others in Britain and in Canada, who are blessed with a superabundance of this world's goods. The national debt of the Dominion is well over two billions of dollars. There must be men in Canada who could easily donate half a million dollars towards its reduction without in any way feeling the pinch of impecuniosity. Or they could place a larger or smaller sum in trust for a number of years to be applied toward this end. Great Britain has set a fine example of patriotic altruism that some of Canada's wealthy sons may feel inclined to emulate.—Toronto Globe.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

### Alberta School Administration

Important changes in rural school administration and taxation at the next session in 1929 were forecast in the Alberta legislature by Hon. Perren Baker, minister of education. It was hinted that the department is considering centralization of employment, and payment of rural teachers in the hands of provincial authorities, while land tax to carry the burden may be instituted.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Exterminator to give relief. Its effects are sure and lasting.

Mike—"Your young brother saw me kiss you. What should I give him to keep him quiet?"

Marion—"Well, he usually gets 50 cents."

# ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;  
it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitation, the tablets will be stamped with their "Bayer Cross" trademark.

# HERCULES

PERMANENT BUILDING PAPER

What's between  
Indoors and Outdoors?

The world is divided into two parts, outdoors and indoors. Between the two lies a problem. The answer has a vital effect on those who are indoors.

If wind and dampness can be kept outdoors, naturally indoors will be comfortable and healthful to the occupants.

You can solve this problem with Hercules Permanent Building Paper. In three grades, x, xx, xxx—Hercules is tested and proven damp proof and wind proof. Test it yourself. A line will bring samples. Write us.

## MINUTES OF BLACKFOOT M.D. MEETING

C. P. R.—Carried.

Coun. Maynard: Whereas it is necessary to provide funds to meet the demands of the various non-collecting school districts within this municipality, therefore, be it resolved and it is hereby resolved that the secretary-treasurer of this Municipality be and is hereby directed and authorized to levy the following rates against the assessable lands in the various school districts noted below and to collect the amounts produced thereby, viz:

Alton R. D. No. 2054, 12 Mills.  
Craigwater, S. D. No. 2428, 7 Mills.  
Crowfoot, S. D. No. 2393, 9 Mills.  
Coun. R. D. No. 4260 13 Mills.  
Shroud, S. D. No. 2405, 6 Mills.  
Hammer Hill, S. D. No. 2361, 6 Mills.  
Jeanne d'Arc, S. D. No. 2205, 6 Mills.  
Long Beach, S. D. No. 2391, 9 Mills.  
Living Springs, S. D. No. 2419, 9 Mills.  
Meadow Grass, S. D. No. 3309, 12 Mills.  
Phongreets, S. D. No. 2594, 8 Mills.  
Rolly Land, S. D. No. 4152, 13 Mills.  
Rock Valley, S. D. No. 2671, 6 Mills.  
Shanbrook, S. D. No. 1096, 6 Mills.  
Towers, S. D. No. 4169, 9 Mills.  
Wheatfield, S. D. No. 2187, 5 Mills.  
Yule, S. D. No. 4004, 10 Mills.—Carried.

Coun. Dunstan: That we request the Union Tractor Company and the Russell Groomer Company for a joint demonstration of a 60-h.p. catallip tractor equipped with winter oil and a 12" super mogul grade.

The demonstration shall be given upon the road West of Sec. 36-24-25-4 and the machinery shall be shipped to Standard so as to be available as soon as the ground is in fit shape. It is understood that upon a satisfactory demonstration to the Council that the machinery shall be purchased.—Carried.

Coun. Dunstan: That Reeve Thorsen be our delegate to attend the annual meeting of the representatives of the municipal districts in the Hall Insurance District to be held in Calgary on the 21st. last.—Carried.

Coun. Thorsen: That we agree to the leasing of road allowance west of the south west of section 5-24-25-4 by Miss Nancy K. H. Davidson, providing satisfactory arrangements can be made regarding charging P.N. No. 4 of Plan No. 6410 situated upon the aforementioned land.—Carried.

Coun. Thorsen: That the accessible information regarding the habits and the extent crows and magpies are a damage loss to farmers.—Carried.

Coun. Dunstan: That settlement be made with the C.P.R. upon the S.E. 24-23-24-26. and W. 19-23-21-24. as is hereafter detailed:

To George Yule: To 1/2 acre of fence at the rate of \$150.00 per mile, upon S.E. 24-23-24-26. \$125.85  
To Canadian Pacific Railway Company. To 20 acre of land from the N.W. 19-23-21-24. at \$25.00 per acre, \$725.

To John B. Desjarline (Estate): To 3.56 acres from the S.E. 24-23-24-26. at \$25.00 per acre, \$89.50.  
To 1.52 acre from the S.W. 19-23-21-24. at \$25.00 per acre, \$38.00.  
\$127.50.

To 25.64 claims of fence upon W. 19-23-21-24. at \$150.00 per mile, \$25.56.—Carried.

To Mrs. Minerva Desjarline (Estate) \$119.50.

Coun. Dunstan: That we meet on the 19th of March in April for the next Council meeting at the usual time and place.—Carried.

Ladies whose husbands complain of their extravagance in dress may find this item useful: The Department of Labor statistics show that the average yearly clothing bill for husbands is \$71.35, while that for the average wife is only \$25.58.

It took a jury at Morrison, Ill., twelve hours to decide a man who drove over a child.

## A MARVELOUS CAMERA

Another triumph of modern photography is seen in a new camera, which the flow of current and its motion by the engine of airplane. The invention is based on the fact that heat of air reflects rays of light.

The new camera, devised by Baron T. Shiba of Japan, head of the Tokyo aeronautics research institute, is a very complicated piece of apparatus, containing 150 mirrors, and records 20,000 exposures a second. When reproduced on a screen as a slow motion picture the most amazing results are secured.

In one of his experiments the Baron photographed an electric light bulb being shattered by a pistol bullet. The bullet appeared to float toward the bulb, gently touching it as the fragments leisurely broke apart. Such experiments are not new, but results secured with this latest camera are said to exceed anything of the kind heretofore attained.

Taking pictures of air currents is getting photography to a pretty fine state. Maybe some day, as has been already suggested, they will be able to photograph our very thoughts. What would be unfortunate for most of us.

## FLYING TO MEXICO

It was with something akin to a shock that the Christian world heard of the advent of the railroad into Jerusalem some years ago. Somehow it seemed almost like sacrilege to invade the Holy Land with such an innovation.

The new Mohammedan world is about to experience a similar upset of its traditions. The airplane is to replace the camel as a means of transporting faithful pilgrims to Mecca. According to a recent communication received by the aeronautics branch of the Department of Commerce, a pilgrims' transport agency of British India is seeking a dozen airplanes capable of carrying 20 or more persons each for the use of pilgrims during next April, May and June. Several ships are also destined for the sea port of the journey, from India to the port of Jeddah. Thence they desire to go by airplane to Mecca.

It would be interesting to know what Mohammed, himself once a camel driver, would think of the abandonment by pilgrims of that time-honored beast of burden the mule and the advent of one which would certainly be unique.

The 140 inhabitants of Trianon Du Cunha will have a treat in store when pilgrims here pour in to the offices of the I. O. D. R. for them. These include timber and

make paper money wear longer. Now if they could find a way to make it buy a little more.

Each day for five months Jerry, a bird dog, has made a 25-mile trip to the grave of his master, C. A. Moodie, near Seattle, Washington.

"SPECIALISTS IN SERVICE"

### THE UNITED CHURCH

REV. C. R. CORCORAN, Minister.

SUNDAY MARCH 25 1928

GLEICHEN:—

Church school at 11 a.m.

7:30 p.m. A Song Service. "Our favorite hymns and their story."

ARROWWOOD:—

10:30 a.m. Service of teaching and worship.

CLUNY:—

8 p.m. Worship.

An Edmonton despatch says: J. C. Buckley, Farmer member for Gleichen, and government "whip," was taken by surprise Thursday afternoon when the members of his party presented him with a handsome monogrammed gold watch in appreciation of his untiring efforts. The presentation was made by Mrs. Irene Paribby, Lacombe, Minister without Portfolio, on behalf of the other members, while Premier J. E. Brownlee occupied the chair.

### TOWN AND DISTRICT

Great Spring weather. Threshing is starting once again. Balmy chinook and plenty of sunshine.

When business is slow an ad will put life in it—try.

The balmy chinook surely cheered everyone.

Now, for finishing that delayed threshing.

Little wonder man kicks at paying taxes when he is busy with flood tides.

Read what the Gleichen Hardware has to say in this issue and hereafter.

Allison Evans is recovering nicely from a broken collar bone, sustained from a fall on the ice.

Read the new Gleichen Hardware ad. in this issue. They will have something to tell you every issue.

A raise of two inches of the sidewalk at the Royal Bank would have saved a lot of feet washing and some cussing.

The town fathers have already accomplished some good on the crossings, and are anxious to get started on grading the streets.

Ask Tom Burne how many mice he saw while extinguishing the fire in Geo. Bell's cook car. Also how fast Bert Heacock's truck can go.

Monday a man, from Calgary was in town looking for a job collecting old accounts. He may be a brave fellow, but, of course, he found nothing in his line to do this prosperous community.

Arrowwood baseball fans are putting on a "Booster Baseball Dance," at Arrowwood on Friday, March 30th, and are preparing to give everyone a good time. A four-piece orchestra has been engaged. You will enjoy this dance.

Sested and Peters are preparing to give a Chassis demonstration of the bigger and better Chevrolet auto with moving pictures at 8 p.m. on Wednesday, March 28th, in their garage at Standard. All are welcome and the admission is free.

The Gleichen Women's Institute believe they have an entertainment for Friday night in the Georgian Singers and Players that will prove one of the best traveling shows to reach Gleichen in a long time.

Arrowwood people are looking forward to a big treat next Friday evening when the Carlsland Dramatic Society will produce their play "Safety First". The artists comprising this society have attained a wide reputation and will be in better condition than ever to sustain it.

The Gleichen Women's Institute are evidently most fortunate in obtaining the Georgian Singers and Players to appear in the Gleichen Community Hall on Friday, March 23, as from reports in our exchanges the artist are exceptionally good and are getting many return engagements throughout Alberta. All lovers of good music mixed with plenty of fun will want to hear these artists in their program of madrigals, songs, cycles, duets, monologues, humorous sketches, dialogues, ballads and instrumental numbers.

A delightful party was arranged by the members of the United Church choir in honor of Miss Dorothy Melvin, who is leaving Gleichen for Calgary. Gathering at the home of Mrs. D. Hutcheson for the usual practice hour the following were present: Mesdames Hutcheson, Hall, Easom, Corcoran, Riddell, Bolinger and Cadman, Misses Dorothy Melvin, Mildred Bolinger and Mildred Milljour, Messrs. Hutcheson, Corcoran, Bolinger, Mitchell and Sutermeister. After a short period of choirwork, a social time was enjoyed by all with guessing contests, singing, etc. A most delicious lunch was served by Mrs. Hutcheson assisted by Mrs. Riddell. A happy farewell was bid Miss Melvin everyone voting her a "Jolly good fellow," indeed.

A special meeting of the Board of Management of the Gleichen United Sunday School was held at the Manse last Thursday evening. W. Sutermeister, ass. supt., D. Hutcheson, sec., A. Mitchell, Mesdames Corcoran, Evans, Wright, Misses Melvin, Crawford and Corcoran present. After the reading of the minutes of the previous meeting. Mr. Mitchell was appointed teacher for the junior class up to the present taught by Miss Melvin, who is now leaving Gleichen. The question of a pianist for the Sunday School was also discussed and Mrs. Cantelon was elected to this office, with Miss Corcoran still acting as assistant. Arrangements were made for a Sunday School social to be held in the near future, with Mrs. R. W. Brown as convener of this committee. The Easter Sunday School service was brought up and a social service will be held. Mrs. Buckley has been appointed convener of the Easter committee. With several other discussion the meeting was a very successful one.

### TWENTY YEARS AGO

#### Taken From The Gleichen Call, 1908

Tuesday Messrs. Ryan & Fair shipped eight carloads of horses to Winnipeg from their ranch north of Gleichen. The horses were a fine looking bunch and in fine condition.

W. D. Trego is in town with three new purchasers of irrigated land. They are: John Bond of Blackfoot, Idaho, E. R. Mulberry of Idaho Falls, and W. F. Bond of Lamont, Iowa.

For the first seven days of March the business transacted at the Gleichen C.P.R. station amounted to \$12,500.00. This may give some little idea of how Gleichen is growing, especially when throughout the country people are talking of stringent times. Cheer up, and watch Gleichen grow.

C. O'Bray and H. S. Torrance were in Monday from Brant.

T. Gibson of Blue Spring ranch spent several days in town this week.

Jas Hogg of Red Deer spent several days in town last week visiting his brother, R. H. Hogg.

The High River Times tells of a farmer stating he was offered 35 cents for his oats in that town and brought them to Gleichen and only received 28 cents a bushel.

S. H. Firth has just completed the largest sign yet displayed in town for the Gleichen Trading Company, Ltd., which he is placing across the front of the company's store.

J. R. Allgood returned last week from Idaho, where he spent most of the winter visiting former friends and telling them of the fertile lands of the Gleichen District. As a result of his missionary work several of his old neighbors came with him to spy out land for themselves and many more will follow.

The meeting of the Gleichen Cemetery Co. Monday evening proved one of the most exciting held here for a long time. There were scraps and more scraps and at times a fight seemed inevitable. The first scene was Mr. Griesbach wrenching a minute book from Mr. Johnston's hands. The latter thought it was his Council book, but the former choose to fight first and explain after. In the second act Mr. Griesbach did not want to hear Mr. Blackburn and struck for home with the minute book, but just then Mr. Bray decided to be door-keeper and Mr. Griesbach thought he would remain. In the third act Mr. Blackburn explained the Council's position and other matters, and Mr. Griesbach talked incessantly. In the fourth everything ended quite happily. The subscribers voted to hand over the cemetery to the Council and appointed a committee of three to settle all questions with the Council meeting next Monday evening. Then Mr. Griesbach refused to trust Secretary Brereton with the land transfer although Mr. Scott offered \$200 security that the secretary would not abscond with the transfer. Finally it was decided Chairman Vigar was the only man to trust the transfer with and it was handed over to him.

Mrs. Frank Daw leaves next week on a trip to the old country to visit her relatives.

Thos. Counsel went to the Calgary hospital last week owing to quite a severe illness.

Mr. and Mrs. W. W. Brown of Strathmore were visiting friends in town Friday and Saturday.

J. B. Leggat, the implement dealer, left for Birtle, Manitoba, last week to wind up his business there and will return in a few days.

An effort is being made to get a post office established at Namaka, and the residents of that district should be granted one without delay.

Miss J. Burne has accepted a position with the Calgary Millinery Parlors and will open her store at Gleichen for the present as announced in last issue.

A. R. Yates has returned from an extended trip to his home in Golden, B. C. While away he took a trip up the Columbia Valley to Wilmer and other towns, where he was formerly in business.

The Milo Pleasant Ridge Club will meet next Wednesday evening. The club has the pleasure of meeting at the home of Mr. and Mrs. W. Brown of Queenstown. The officers are M. L. Hudson, chairman, Martin O'Connor, vice-chairman; Robert Rowe, treasurer; A. Alston, secretary; and E. H. Smallcombe, treasurer. The club extends to all a most hearty invitation to attend its meetings and it trusts also that it will have the pleasure of meeting in joint debate some of the debaters from the other side of the lake in the Queenstown district.

M. Munroe, P. M., is busy building a new addition to his house to accommodate the P. O.
